*A scientific event was held during the days of mountaineering in Federation of Bosnia and Herzegovina, as a part of Festival of mountaineering, on 13 June 2015 at the Prokosko Lake site, Vranica Mountain. This event was attended by the naturalists, who presented current issues related to the recent state of the natural aqua complex in direct and indirect*

*Na naučnoj manifestaciji rasvjetljeni su: limnološki, geomorfološki, hidrološki, klimatski, ekološki, turizmološki, valorizacioni i biološki aspekti stanja i perspektiva dalje evolucije Prokoškog jezera. Pored toga, Okrugli sto razmotrio je i neka legistativna pitanja koja se tiču upravljanja ovim akvalnim kompleksom, koji je stavljen u kategoriju zaštite parka prirode.*

*Nakon naučne prezentacije koja je obuhvatila komponentne prirodne i društvene aspekte stanja i perspektiva Prokoškog jezera u njegovom neposrednom i posrednom sливу razvila se naučna debata u kojoj su uzeli učešće ekologisti, ljubitelji prirode raznih profila od naučnih radnika*

*basin of the Prokosko Lake with hints of negative trends of natural evolution and negative anthropogenic interventions that accelerate the natural evolution with the proposal of prognostic measures and elimination activities of negative tendencies in the future development.*

*On the conference the following aspects were highlighted: limnological, geomorphological, hydrologic, climatic, ecological, tourism-related, valorisation and biological aspects of the situation and perspectives of further evolution of the Prokosko Lake. In addition, the Roundtable examined some legislative issues concerning the management of this aqua complex, which was placed into the "Park of Nature" category of protection.*

*After the scientific presentation which included the component natural and social aspects of the state and perspectives of the Prokosko Lake in its direct and indirect basin, scientific debate was developed in which ecologists; nature lovers of various profiles from scientists to publicists took part. Scientific and professional discourse was focused on the assessment of recent conditions of Prokosko Lake, which was not determined as satisfactory.*

**Keywords:** Prokosko Lake, scientific event, the evolution of the lake, anthropogenization, negative tendencies, legislation, conclusions.
